

Guide on How to Tell Your Story

What's your name, what county do you live in? What do you work in and what is your position there? Do you have children or take care of other family members? Is there something important to know about you to help the legislator understand your experience?

What is the main problem with the fact that everyone does not have access to a driver's license? How does this problem affect you and your family? What is the financial and emotional impact on you?

How do you feel now that you have joined with others to create a change?

-For example, "I joined this movement because I know that together we can achieve licenses for everyone"

Why is it important for us to take action now? Why can't we wait?

- Here we should ask this legislator to co-sponsor and support HB 279
